

**California Department of Health Services (DHS)  
Vehicle Occupant Safety Program (VOSP)  
Child Passenger Safety (CPS) Teleconferences**

The VOSP bi-monthly teleconferences provide an opportunity for Child Passenger Safety advocates to network with local child passenger safety coordinators, technicians, advocates and others to update one another on the latest new products, share successful strategies, discuss initial or ongoing barriers and help resolve mutual problems. Plus, VOSP provides updates on significant topics and guest speakers on critical issues.

To join the teleconference, dial (916) 556-1508, access code **8677#**. If possible, join with other participants in your community to listen in at one site and promote collaboration!
